IFTAKHAR AHMED RAKIB

Junior Software Engineer | Flutter Developer | Software QA

Dhaka, Bangladesh | iftakherahmedrakib09@gmail.com
github.com/09rakib | linkedin.com/in/iftakher-ahmed-339a151a

PROFILE

Junior Software Engineer with hands-on Flutter/Dart development and manual software QA experience. Work includes REST API integration, authentication, state management, test case design, API validation, defect reporting and Git-based collaboration.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Provider, Riverpod, Dio, Shared Preferences, Flutter Secure Storage
Backend and data: Laravel, PHP, FastAPI, Python, REST APIs, MySQL, SQLite
QA: Functional, UI, regression, smoke, authentication, API and cross-browser testing; test cases and bug reports
Tools: Git, GitHub, Postman, Swagger, Trello, Jira, Android Studio, VS Code

PROFESSIONAL EXPERIENCE

Junior Software Engineer - Time Research & Innovation Ltd.

Dhaka, Bangladesh | January-September 2026 | Internship followed by a junior engineering role

- Developed Flutter/Dart features and approved mobile UI flows, including contributions to the Voiexa mobile app.
- Built four authentication flows: login, registration, OTP verification and password reset, with Dio-based API integration and secure token storage.
- Performed manual and API testing across five web and mobile products; designed test cases, documented defects and retested fixes using Postman and Swagger.
- Collaborated through Git branches, pull requests, code review and merge conflict resolution; refined work through task planning, design reviews and feedback.

SELECTED PROJECTS

Voiexa Mobile App | Flutter, Dio, Provider, Secure Storage

Professional contributions to mobile UI, API integration, authentication and session handling. Private source.

DocScan | Flutter, Riverpod, ML Kit, SQLite

Android scanning, local document management, PDF compression, saved-page editing, English/Bangla interfaces and export workflows.

Pharmacy ERP & POS | Laravel 12, PHP, MySQL, Sanctum

Multi-tenant medicine/product catalogs, branch-aware permissions, batch inventory, transactional stock ledger and sales services. Private source.

Multi-Vendor Ecommerce | Laravel 12, PHP, MySQL

Customer, vendor and admin modules, cart services, OTP flows and SSLCommerz integration code.
